THE RULES (CLIP TO YOUR DESK)

1. **4–7 words.** Longer dies in the preview pane.
2. **One engine per line.** Two engines = no engine.
3. **Never scream.** No caps, no “!!!”, no emojis, no “URGENT”.
4. **Never fake.** No “RE:” on a first send, no “following up” as a subject.
5. **Test weekly.** Two formulas per wave; log opens and replies; kill losers.
6. **Specific beats clever.** A verifiable number beats a pun 10 times out of 10.
