MODULE 5 OF 6

MODULE 5 · Human Frequency

The people are the airwaves.

A complete premium course module — overview, lesson-by-lesson, capstone, quiz, and takeaways.

FULL-LENGTH MODULE GUIDE · TRAINING EDITION

RADIOREACH.US · THE RADIO OWNERSHIP SYSTEM

MODULE OVERVIEW

Airplay is won by machines but kept by people. Human Frequency is the relationship layer — the 12-minute call, the thank-you economy, the burned-well repair, and the 90-day ally engine that compounds trust into champions.

BY THE END OF THIS MODULE YOU WILL

- Run a 12-minute high-value relationship call.
- Deploy the thank-you economy with specific, no-ask gratitude.
- Repair burned wells with a five-step, ROI-driven protocol.
- Compound relationships with the 90-day ally engine.

THE LESSON MAP

LESSON 5.1 · High-Value Calls

Run the 12-minute relationship call.

★ **INSIDER RADIO TIP**

The call's third question — 'when's your add cycle?' — unlocks the calendar for every future campaign. End every call with a date, not a hope: 'checking back [date]'.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T51 · High-Value Calls in the module's Templates folder.

LESSON 5.2 · The Thank-You Economy

Use tiny gestures to win lifelong allies.

★ **INSIDER RADIO TIP**

The gesture is one rung above the ask — give confidant respect before you want champion behavior. Never attach an ask to a thank-you; the ask at week 5 lands on a relationship, not a transaction.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T52 · The Thank-You Economy in the module's Templates folder.

LESSON 5.3 · Burned-Well Repair

Salvage relationships with the 5-step protocol.

★ **INSIDER RADIO TIP**

Triage by ROI: ghosted wells recover fastest, spammed wells need the full 90-day cooling. Check the playlist before repairing a clash well — a changed lineup is new soil.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T53 · Burned-Well Repair in the module's Templates folder.

LESSON 5.4 · Relationship Compounding

Run the 90-day ally engine.

★ **INSIDER RADIO TIP**

The asset/ask balance is the real KPI — 3 asks and 0 assets means the account is draining. Scan monthly and send a no-ask value drop to any ally running a deficit.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T54 · Relationship Compounding in the module's Templates folder.

CAPSTONE ASSIGNMENT

[

MODULE 5 DELIVERABLE

Run an Ally Sprint: three 12-minute calls, three no-ask thank-yous, one burned-well repair, and a seeded 30/10/10 ally ledger with a healthy asset / ask balance.

Pass standard: complete the deliverable before starting Module 6.

MODULE QUIZ

[

Q1. How long is the high-value call?

Answer: Twelve minutes, with one ask.

] [

Q2. What unlocks every future campaign calendar?

Answer: The 'when's your add cycle?' question.

] [

Q3. Should a thank-you carry an ask?

Answer: No — the zero-ask window is the strategic move.

] [

Q4. Which burned well recovers fastest?

Answer: The ghosted well.

] [

Q5. What is the asset / ask balance?

Answer: The health KPI of every ally account.

]

KEY TAKEAWAYS

CARRY THESE FORWARD

- Twelve minutes, one ask.
- Gratitude above the ask.
- Repair by ROI.
- The ledger is the moat.

BRIDGE TO THE NEXT MODULE

People, proof, and persistence compound into a business. That’s the Empire Loop.
