BONUS 3 — THE ONE-PAGE EPK COMMAND DECK SPECIFICATION

Frequency Dominion · Confidential Operating System

CONFIDENTIAL OPERATOR ASSET — FREQUENCY DOMINION

> "Your Electronic Press Kit is not a biographical brochure. It is an interactive single-screen Command Deck engineered to give a gatekeeper all critical operational facts in 20 seconds."

1. ARCHITECTURAL PHILOSOPHY & OBJECTIVE

Traditional independent artist press kits fail because they are designed for vanity rather than rapid gatekeeper evaluation. Music directors, festival booking managers, and sync supervisors receive hundreds of submissions every week. When confronted with a 14-page PDF or a cluttered website with five dropdown navigation menus, they immediately bounce.

The **One-Page EPK Command Deck** solves this by establishing a strict, single-screen responsive visual hierarchy. It answers the five core questions every gatekeeper asks within 20 seconds:

1. Who is this artist, and what is their visual authority? (Block 1: Hero Identity)
2. What is their commercial sonic proposition in plain English? (Block 2: 80-Word Bio)
3. What does the record sound like right now without friction? (Block 3: Audio Deck)
4. Who else with institutional credibility has already validated them? (Block 4: Proof Wall)
5. Where is their active regional ground game? (Block 5: Tour Dates & Contact)

2. THE SIX-BLOCK MODULAR SPECIFICATION

Block Number	Modular Component	Required Elements	Technical Specification	Target Inspection Time
Block 1	**Hero Identity & Stance**	High-charisma landscape photo, artist title, genre tag, hometown city	1920x1080 compressed WebP (<250kb); high-contrast typography	3 seconds
Block 2	**Executive Commercial Bio**	Exactly 80 words; objective third-person tone; two verifiable career facts	15px-17px clean sans-serif; 1.5 line height; zero poetic fluff	6 seconds
Block 3	**Embedded Audio Engine**	Lead single at top + instant Broadcast Master WAV download button	HTML5 audio player; instantaneous play-	4 seconds

			back; no login or download wall	
Block 4	**The Proof Wall**	Four verifiable receipt cards: station adds, editorial quotes, ticket counts	High-contrast badge styling; active hyperlinks to external proof	3 seconds
Block 5	**Tour Dates & Routing**	Chronological 90-day live schedule: Date, City, Venue, Capacity, Tickets	Tabular format; prominent highlight on upcoming regional dates	2 seconds
Block 6	**Direct Commercial Contact**	Direct mobile phone, direct email, booking & management contact	Click-to-call / click-to-email active links; zero generic forms	2 seconds

3. COPYWRITING FORMULA FOR THE 80-WORD BIO

Follow this strict three-sentence template:

- **Sentence 1 (Identity & Sonic Stance):** "[Artist Name] is a [City]-based [Genre] artist blending [Sonic Element A] with [Sonic Element B], delivering [Specific Emotional/Listener Feeling]."
- **Sentence 2 (Institutional & Broadcast Proof):** "Currently in rotation on [Station Callsign A] and [Station Callsign B], their latest single '[Track Title]' peaked at #[Chart Position] on [Relevant Chart] following sold-out showcases at [Notable Venue]."
- **Sentence 3 (Current Operational Milestone):** "With [Upcoming Tour Name] routing across [Region] this fall, [Artist Name] brings an uncompromising broadcast-ready sound to audiences and programmers alike."

4. DEPLOYMENT PROTOCOL & BEST PRACTICES

1. **Host at a Dedicated URL:** Host your Command Deck at `artistname.com/epk` or `artistname.com/radio`. Never send an attached document.
2. **Zero Password Barriers:** Never password-protect your press kit. A gatekeeper arriving from a pitch will immediately close the tab if blocked by a login.
3. **Mobile Screen Optimization:** Ensure Blocks 1, 2, and 3 are 100% visible on a standard smartphone screen without horizontal scrolling.
