WELCOME TO FREQUENCY DOMINION

[

> You do not ask for airplay. You own the frequency.

Most artists treat radio like a favor they're hoping to collect. Frequency Dominion is the opposite operating system — an owner's course that turns the contacts you already own into a predictable, compounding airplay machine. This handbook is your roadmap; the six modules are the training.

HOW TO USE THIS COURSE

THE LEARNING LOOP FOR EVERY LESSON

- Read the lesson's Learning Objectives so you know what mastery looks like.
- Study the masterclass directive and strategic blueprint in the lesson dossier.
- Run the implementation drills and hit the pass standards.
- Fill in the matching Action Worksheet in the Templates folder.
- Read the Insider Radio Tip and the Operator Move for the premium edge.
- Pass the Self-Assessment before you move to the next lesson.

THE SEVEN LAWS OF FREQUENCY DOMINION

SEVEN LAWS

- 1. The Unheard Tax is real. Every week without airplay costs you reach, revenue, and leverage.
- 2. A station is a customer, not a favor. Serve the PD's clock. Win the format.
- 3. Proof precedes the pitch. Show the evidence before you ask.
- 4. Targets are architecture, not luck. Heat map → format score → war room → campaign.
- 5. The pitch is a weapon, not a message. Ninety words, one hook, one ask.
- 6. Follow-up is a system, not a feeling. Three touches, spaced and escalated.
- 7. Empires compound. Proof → adds → exposure → income → better proof → bigger stations.

THE COMMITMENT OATH

[

I am done asking for airplay. From today, I am a frequency owner. I will target with precision, prove with evidence, pitch with weapons, follow up with systems, and compound every win until airplay is a revenue line — not a hope.
