MODULE 3 OF 6

MODULE 3 · The Pitch Weapon

Be the one email they answer.

A complete premium course module — overview, lesson-by-lesson, capstone, quiz, and takeaways.

FULL-LENGTH MODULE GUIDE · TRAINING EDITION

RADIOREACH.US · THE RADIO OWNERSHIP SYSTEM

MODULE OVERVIEW

Everything before this point is invisible to the programmer. The Pitch Weapon is the moment you become the one email they actually answer — a subject line that cuts through noise, a 90-word pitch with one ask, a one-page EPK, and 90 seconds of radio-ready audio.

BY THE END OF THIS MODULE YOU WILL

- Write subject lines that win in 1.4 seconds.
- Craft a 90-word pitch with one hook and one ask.
- Build a one-page EPK that commands attention.
- Produce the 90-second radio-ready weapon that forces replies.

THE LESSON MAP

LESSON 3.1 · Subject Lines That Cut Through Noise

Apply the 30-formula vault.

★ **INSIDER RADIO TIP**

Subject lines win station-type-matched: proof lines for commercial, format references for specialty, name-drops for established contacts. Log every subject by station type and build your own playbook.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T31 · Subject Lines That Cut Through Noise in the module's Templates folder.

LESSON 3.2 · The 90-Word Pitch

Write the only email that matters.

★ **INSIDER RADIO TIP**

The reply you want is a question. 'Send the WAV?' is an 80%-made yes. Answer any PD question within 4 hours with a phone number and a 12-minute call offer — speed is the proof of professionalism.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T32 · The 90-Word Pitch in the module's Templates folder.

LESSON 3.3 · The One-Page EPK

Command attention in a single page.

★ **INSIDER RADIO TIP**

The EPK is a decision interface, not art. Keep 6 blocks, but build 3 regional proof decks (west / east / mid) that swap only the proof block — one hour of work, a real conversion delta.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T33 · The One-Page EPK in the module’s Templates folder.

LESSON 3.4 · Radio-Ready Audio

Forge the 90-second weapon that forces replies.

★ **INSIDER RADIO TIP**

The 30-second cut is the forwarding asset — the one PDs pass to their promo team. Always include the smallest, hook-loaded 30-sec version in every package.

LESSON DRILL

Complete the drills in the masterclass dossier and pass the pass standards.

ACTION WORKSHEET

Fill in T34 · Radio-Ready Audio in the module’s Templates folder.

CAPSTONE ASSIGNMENT

[

MODULE 3 DELIVERABLE

Assemble your Pitch Package: three station-type-matched subject lines, one 90-word pitch, a one-page EPK with six blocks, and a radio-ready full track plus a 30-second forwarding cut.

Pass standard: complete the deliverable before starting Module 4.

MODULE QUIZ

[

Q1. How long do you have to win a subject line?

Answer: About 1.4 seconds.

] [

Q2. What reply should you engineer for?

Answer: A question — ‘send the WAV?’ is an 80%-made yes.

] [

Q3. How many words is the pitch?

Answer: Ninety — one hook, one ask.

] [

Q4. How many blocks does the EPK carry?

Answer: Six.

] [

Q5. What is the forwarding asset?

Answer: The 30-second radio cut programmers pass to the promo team.

]

KEY TAKEAWAYS

CARRY THESE FORWARD

- One subject, 1.4 seconds.
- Ninety words, one ask.
- The EPK is a decision interface.
- The 30-second cut forwards.

BRIDGE TO THE NEXT MODULE

Weapons are only powerful when fired in sequence. That’s the 21-Day Campaign.
